INDIASOFT BUSINESS ON A GROWTH TRAJECTORY

About ESC

The Electronics and Computer Software Export Promotion Council of India (ESC) stands as a dynamic premier trade promotion organization. The Council's primary mandate is to advance India's Electronics and Information Technology trade on a global scale. Through a strategy rooted in diversification, ESC has witnessed sustained growth and ongoing evolution. ESC's outstanding match-making services have been pivotal in assisting numerous SMEs to access international markets for their offerings. Further, ESC continues to play a key role in nurturing a favourable environment for the development of India's electronics and ICT industry.

INDIASOFT 2024

INDIASOFT, a flagship International event organized by the Electronics and Computer Software Export Promotion Council (ESC), has become a pivotal force in the IT and tech sector. Since its inception in 2001, INDIASOFT has consistently showcased the cutting-edge capabilities of the software and tech industry and serves as a platform to foster business growth, cultivate synergies for WIN WIN growth.

The 24th edition, emerged as a monumental success, serving as a pivotal platform for global connectivity, innovation, and the establishment of enduring international partnerships. This event showcased the full potential and power of Indian and global fraternity in AI, IOT, Blockchain, Cyber security, web and mobile development, Metaverse, Fintech, Edutech, Agri Tech, Drones, and many more.

Several startups showcased innovative products and services, and numerous new products were launched at this platform. As a result, the event emerged as a convergence of diverse perspectives, cutting-edge technologies, and a collaborative spirit, all working together to build a bright future.

HIGHLIGHTS OF THE INAUGURAL SESSION

The Electronics and Computer Software Export Promotion Council (ESC) organised the 24th edition of its flagship event – INDIASOFT 2024 during 17th-19th January 2024 at New Delhi. The event was graced by the presence of Mr. Piyush Goyal, Hon'ble Minister of Commerce and Industry and Minister of Consumer Affairs, Food & Public Distribution and Textiles, Mr. Arjun Meghwal, Hon'ble Minister of State for Law and Justice (Independent Charge) and Ms. Meenakshi Lekhi, Hon'ble Minister of State for External Affairs, Government of India. Deputy Minister of Communications, Cuba Eng. Wilfredo Gonzalez Vidal was the Guest of Honour.

Mr. Arjun Ram Meghwal, Hon'ble Union Minister of State for Law and Justice, (Independent Charge) and other dignitaries lighting the inaugurating lamp.

Mr. Piyush Goyal, Minister of Commerce and Industry and Minister of Consumer Affairs, Food & Public Distribution and Textiles during the event.

Inaugural address

In his opening remarks, Mr. Gurmeet Singh, Executive Director at ESC, reflected on the evolution of INDIASOFT since 2001, noting its increasing opportunities and the rise in business transactions with each edition. He emphasized that INDIASOFT 2024 wasn't just a gathering of industry leaders and stakeholders but a dynamic showcase of technology's transformative potential. In an age defined by rapid digitization, he underscored the crucial role of collaboration and knowledge sharing, portraying the event as a crucible of ideas shaping the IT landscape's future.

Mr. Arjun Ram Meghwal, Hon'ble Union Minister of State for Law and Justice, (Independent Charge) along with other dignitaries during INDIASOFT 2024

Mr. Sandeep Narula, Chairman, ESC addressing the audience.

Mr. Sandeep Narula, Chairman of ESC, welcomed the delegates and highlighted the synergies gained by co-locating software and hardware shows. He pointed out the potential for innovation in embedded technology, a key segment with significant global market prospects. Mr. Narula also addressed technology challenges facing the nation, expressing confidence in the Indian ICT sector's exponential growth trajectory, bolstered by support from both central and state governments.

Mr. Arvind Kumar, Director General, STPI addressing the guest.

During his address to the delegates, Mr. Arvind Kumar, Director General of Software Technology Parks of India (STPI), highlighted the pivotal role of Centers of Excellence (CoEs) established by STPI. These centers, he

explained, are actively training entrepreneurs in tier 2 and 3 cities to ascend the value chain within the technology sector. Mr. Kumar emphasized that such focused and rigorous training programs are instrumental in heralding the next wave of the startup revolution, facilitating the widespread adoption of cutting-edge Deep Tech technologies such as Artificial Intelligence (AI), Robotics, and more.

Address by the **VIPs and guests**

During the Inaugural session, Union Minister of State for Law and Justice, (Independent Charge), Mr. Arjun Ram Meghwal said that *India had entered into an exciting stage of information technology, wherein tools like Artificial Intelligence (AI), Robotics, Blockchain etc. were transforming India's development agenda.*

Further, he highlighted that every segment of the Indian economy was moving towards digitization in all avenues including the domain of legal affairs, transforming the country into a digital behemoth; he added that the process would continue unabated and would transform boundaries into opportunities.

Mr. Arjun Ram Meghwal addressing the audience.

The Hon'ble Minister also said, *"..forums like INDIASOFT should not only pave the way for networking among IT professionals and entrepreneurs, but pool their minds to strategize how IT technology should lead to more inclusive growth."*

Eng. Gonzalez Vidal Wilfredo, First Vice Minister of Communications Ministry of Communications, Cuba addressing the audience

A view of INDIASOFT 2024

Eng. Gonzalez Vidal Wilfredo, First Vice Minister of Communications Ministry of Communications, Cuba invited Indian IT companies to invest in his country and to be a partner in the fast emerging investment opportunities both in the software and hardware segments. He also referred to the ICT show being held in Cuba in March this year and invited India to participate in large numbers.

Mr. Buddy Rizer, who holds the role of Executive Director for economic development in Loudoun County, Virginia, expressed deep admiration for the meticulous organization of INDIASOFT and extended his heartfelt appreciation to the Indian tech companies for their relentless dedication to innovation. He was thoroughly impressed by the seamless execution of INDIASOFT and commended the Indian tech sector for its proactive approach towards pioneering advancements.

Mr. Abhijeet Agrawal, MD, MPSEDC highlighted and brought forward the ICT investment opportunities in the state of Madhya Pradesh as well as, various incentives including curated packages for large investments in his presentation.

There were also presentations from the Government of Bihar, that also emphasised investment opportunities.

Mr. Veer Sagar, Vice Chairman, ESC greeting Mr. Buddy Rizer, Executive Director, Department of Economic Development, Loudoun County, Virginia, USA

Mr. Abhijeet Agrawal, MD, MPSEDC addressing the audience.

INDIASOFT 2024: BRAINSTORMING SESSIONS

Conference Sessions

Collaborating with few of the leading industry associations, several conferences were organised during the event. These events offered valuable insights into the latest technologies and emerging market trends.

Session on “Indian Diaspora Embraces IT-led Digital Transformation”

These sessions were organized in association with

Mrs. Meenakshi Lekhi, Hon'ble Minister of State for External Affairs and Culture, Government of India graced the Session and addressed the gathering. In her address, Mrs. Lekhi *expressed satisfaction at several PIOs making extra efforts to rejuvenate their connection with India and sharing their views with Indian entrepreneurs.* She assured of all possible help from the Government of India to any initiative aimed at taking Indian tech-based industries to global markets.

Opening session was addressed by Mr. Sushil Pandit, Working President, PIOCCI and Dr. SK Varshney, Head, International Cooperation, Department of Science & Technology, Government of India. Mr. Pankaj Dixit, Director of Industries, Government of Bihar and Mr. Abhijeet Agrawal, Managing Director, MP State Electronics Development Corporation addressed the Session.

Panel Discussions

Panel Discussion by PIOs was moderated by Mr. Munish Gupta, Secretary & International Coordinator, PIOCCI and included following as panellists - Mr. Ameet Nandlaskar – Australia /Oceania Coordinator, PIOCCI; Mr. Levine Singh – CEO, Tsiko Technologies, South Africa; PIOCCI, Africa and Mr. K K Bhardwaj, CEO, Vidyatech Inc., USA.

Finally, two start-ups made presentations about their upcoming ventures:

The panellists highlighted that Indian diaspora's embrace of IT-led digital transformation underscores a profound global shift towards leveraging technology for societal and economic advancement. As individuals of Indian origin continue to excel in various fields worldwide, their contributions to the digital landscape are significant. Their deep-rooted understanding of technology coupled with a global perspective has led to the creation of innovative solutions, driving efficiency, connectivity, and inclusivity across industries. This embrace not only strengthens India's position as a hub of technological expertise but also fosters collaboration and knowledge exchange on a global scale, catalyzing transformative changes that benefit communities and economies worldwide.

Session on “Leveraging Tech to Empower Small Enterprises - Navigating the Digital Horizon for Small Enterprises”

Conference was organised in association with

Mr. Sanket Bhondve, Joint Secretary, Ministry of Electronics & Information Technology (MeitY) was the Chief Guest. He was welcomed by Mr. Rajkumar Rishi, President, MAIT. Inaugural session of the Conference was also addressed by Mr. Rajveer Singh, Apex Cluster Development Services Pvt. Ltd (ACDS) and Col (Retd) Suhail Zaidi, DG, MAIT. Plenary Session of the Conference was moderated by Mr. Radhesh S, Director - Medium Business, Dell Technologies. Ms. Mercy Epao, Joint Secretary, Ministry of MSME, Government of India was the lead speaker. Other members of the panel included academicians and bigwigs of the soft-tech industry.

The session brought attention to the significant growth and vital role of manufacturing within India, emphasizing how strategic policies, combined with the enthusiasm and initiative of entrepreneurs, are propelling the nation into a new era of development. It underscored the transformative impact of these policies and the proactive efforts of entrepreneurs in driving India's progress in the manufacturing sector.

The discussion delved into the various policies and initiatives that have been instrumental in fostering a conducive environment for manufacturing activities. These policies have not only attracted domestic investments but also encouraged foreign investors to participate actively in India's manufacturing landscape. The session highlighted the synergistic effect of government policies and entrepreneurial drive, leading to increased industrial output, job creation, and technological advancements.

Moreover, the session shed light on how the collective efforts of policymakers, industry leaders, and entrepreneurs are aligning with global trends and standards, positioning India as a competitive player in the global manufacturing arena. It emphasized the need for continuous innovation, skill development, and strategic collaborations to sustain this growth momentum and propel India's manufacturing sector to new heights.

Overall, the session provided a comprehensive overview of the evolving manufacturing landscape in India, showcasing the transformative power of policies and entrepreneurial spirit in driving economic growth and competitiveness on both national and international fronts.

Session on Trends and Developments in the AIOT Domain

The Session was moderated by Mr. Mandeep Singh Puri, Past Chairman, ESC and CEO, FutureSoft India. Panellists included Mr. Veer Sagar, Vice-Chairman, ESC; Mr. Ben Johnson, Co-Founder & CTO, Uptitude Limited, UK; Mr. Jasbir Singh Dhaliwal, Principal Architect – IoT and Cloud, IBM; and Mr. Daksh Sharma, Co-Founder, IFFORT.

The speakers highlighted the role of Artificial Intelligence (AI) and Internet of Things (IoT) in reshaping modern, technology led society. During the course of discussion, speakers shared their insights about the two tech streams and the impact these were likely to have on lives of individuals as well as institutions.

Session on Data Centres in India: US\$ 11.6 bn Opportunity

The Session was moderated by Mr. Vinay Nagpal, CEO, Inter Globix LLC and was also addressed by Mr. Buddy Rizer, Executive Director, Loudon County Economic Development, Mr. Sudhir Kunder, Chief Business Officer, DE-CIX India and Mr. Amit Agrawal, AVP, Web Works Data Centres India.

Initiating the discussion, Mr. Vinay Nagpal introduced members of the Panel. He spoke about the critical role played by Data Centres in modern tech-based economies including in simple acts such as communication over mobile phones. It was noted that with growing needs, India would soon be host of large number of Data Centres and would open new investment opportunities that were estimated to be of the order of around US\$ 11.6 bn.

Session on Techade: Leapfrog with E⁴ @ ELCIA, Bangalore

Session in association with Electronic City Industries Association (ELCIA) Bangalore. The Session aimed at highlighting the emergence of Bangalore as the prime centre for growth of electronics and software industry in India. Of particular interest was the role played by ELCIA, an Industry Association, in developing Electronics City, an industrial estate developed exclusively to cater to electronics and software industry.

Mr. A Vaidyanathan elucidated initiatives taken by ELCIA and its allied organisations viz – ELCIA Cluster; Electronics City Industrial Township Authority (ELCITA); ELCIA Skill Development Centre (ESDC) and ELCIA Trust. Together, these bodies are responsible for overall development and growth of Electronics City and industries located therein. ELCITA undertakes maintenance of Electronics City township including waste management, traffic management, safety and sustainability. ELCIA Cluster is a Common Facility Centre (CFC) that supports MSME units by making available various facilities

A view of panel discussions.

needed for their operations. ESDC is imparting skills to enhance employability of manpower needed by companies in the tech space. ELCIA Trust carries out Community Services in and around Electronics City.

Session on Empowering Youth for ESDM Sector in Amrit Kaal

Electronics Sector Skills Council of India (ESSCI) was the partner organisation for the Session on “Empowering Youth for ESDM Sector in Amrit Kaal”.

The Session was moderated by Lt. Gen Ajay Chandele, President, Defence, Internal Security & Public Safety, Geospatial World. Other members of the Panel included Mr. Mahaveer Singhvi, Joint Secretary, New, Emerging and Strategic Technologies (NEST), Ministry of External Affairs, Government of India; Mr. Amrit Manwani, CMD, Sahasra Group of Companies; Col Gunjan

A view of panel discussions.

Chowdhary, Director, National Council for Vocational Education and Training (NCVET), Ministry of Skill Development & Entrepreneurship, Government of India; Ms. Shreshtha Gupta, Vice President, IT and Digital, NSDC, Director & CTO, NSDC International; Dr. Biswajit Saha, Director, Training & Skill Education, CBSE and Mr. K P Sharma, Vice President, Global Power Systems, Schneider Electric.

The Session focused on showcasing the collaborative efforts between the Government and the industry aimed at equipping the youth with the necessary skills required to excel in the electronics industry. It emphasized the importance of empowering young individuals with the right knowledge and expertise to prepare them for skilled employment opportunities within this sector.

During the Session, various initiatives undertaken by both the Government and industry were discussed in detail. These initiatives encompassed a wide range of activities, including specialized training programs, skill development workshops, apprenticeships, and educational partnerships. The goal of these efforts was to bridge the gap between the existing skill sets of the youth and the demands of the rapidly evolving electronics industry.

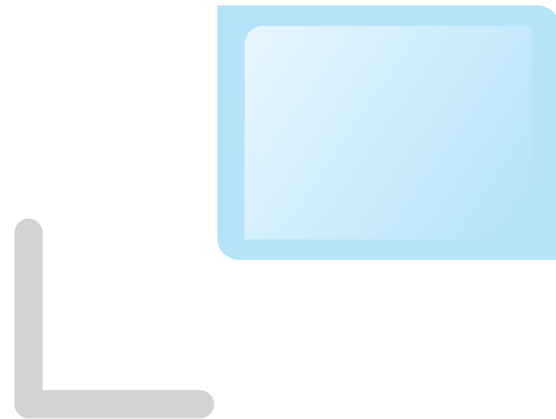

Moreover, the Session highlighted the significance of aligning skill development initiatives with industry requirements and technological advancements. It emphasized the need for continuous upskilling and reskilling to ensure that the youth remain competitive and adaptable in a dynamic job market. The discussions also touched upon the role of vocational training institutes, industry-academia collaborations, and government schemes in promoting skill development and employment opportunities in the electronics sector.

Overall, the Session provided a comprehensive overview of the concerted efforts being made to nurture a skilled workforce capable of contributing effectively to the growth and innovation of the electronics industry. It underscored the importance of a holistic approach involving stakeholders from the government, industry, and educational institutions to address the skill gaps and empower the youth for meaningful and sustainable careers in this vital sector.

INDIASOFT 2024 Exposition

Alongside, INDIASOFT 2024 featured co-located events with over 1500 tech companies showcased a diverse range of innovations and new product launches.
